# Rethinking Our Classrooms Vol 1 - Revised Edition

## **Synopsis**

Since the first edition was published in 1994, *Rethinking Our Classrooms* has sold over 160,000 copies. This revised and expanded edition includes new essays on science and environmental education, immigration and language, military recruitment, teaching about the world through mathematics, and gay and lesbian issues. Creative teaching ideas, compelling classroom narratives, and hands-on examples show how teachers can promote the values of community, justice, and equality while building academic skills. Nowhere is the connection between critical teaching and effective classroom practice clearer or more accessible. A great resource for new and veteran K-12 teachers, as well as teacher education and staff development programs. Includes: Building Community From Chaos Race and Respect Among Young Children Why Students Should Study History: An Interview with Howard Zinn Taking Multicultural, Anti-Racist Education Seriously Unlearning the Myths that Bind Us: Critiquing Cartoons and Society Teaching Standard English: Whose Standard? Teaching About Global Warming in Truck Country Math, SATs, and Racial Profiling Students Mobilize for Immigrant Rights Equity Claims for NCLB Don't Pass the Test Why We Need to Go Beyond the Classroom A totally revised and updated Resources chapter. Plus many more essays, poems, and student handouts

Excellent resource for any social studies methods course or related field. The short readings get

students thinking about controversial and diverse issues. Easy to pick and choose topics that fit your needs.

Excellent insight. It will be a resource for many years, and a launching pad for further work. Highly recommended for those interested in the teachers-perspective to social change and education action.

Rethinking schools Vol. 1 is a revision of an older edition. I previewed the new volume and used it for my Foundations Course with an emphasis on social justice. The articles are short, provocative and compliment a more rigorous text and a collection of readings. As a supplemental text Rethinking Schools, Vol. 1 works very well to engage my Teacher Candidates in thoughtful discussion and critical analysis of more traditional texts. The articles are written from the practitioner point of view, ranging from early education to high school. I will use this text again. Resilience Education

Required textbook -- lots of good, practical ideas for the classroom. Variety of contributors makes for an interesting compilation of material.

It's a good read and in excellent condition also was sent before the date described, I am just refreshing all my knowledge in the classes I have taken before.

Rethinking Our Classrooms Vol 1 - Revised Edition is a great book for educators. Lots of great ideas and resources.
