Social Studies For The Preschool/Primary Child (9th Edition)

Synopsis

Social Studies for the Preschool/Primary Child, 9/e, written by respected authors Sharon Castle andÂ Renee C. Falconer, and begun by the late Carol Seefeldt, remains one of the most popularly read texts on teaching social studies to young children. Filled with a multitude of ideas, suggestions, and activities that prospective early childhood teachers can use to interest young children in social studies, the practicality and applicability of this resource is proven. Not only will novice teachers learn the content and methods of teaching social studies, but also they will be given sound ways to integrate social studies in other areas of the curriculum, including science, the arts, literacy and literature, and mathematics. The importance of understanding and using child development knowledge is a focus throughout the book. It includes a full chapter on play as a crucial part of childrenâ™s learning and development, and incorporates ideas for play throughout the material. Revised with the most current research, topics, and more, the book includes three extensively revised chapters to offer all of the 10 NCSS Thematic Strands; a new emphasis on the use of such technology as e-mail, digital cameras, and the World Wide Web; and thoroughly incorporates the current NAEYC standards for quality, curriculum, and professional preparation.

Customer Reviews

I was very happy with how fast I received this book and also the price and quality of the book. I bought it used but it looks brand new!

I already bought the old edition, so i only missed last chapter for my last fall semester. The print is fading away and the price for rent kind a expensive for a student and a single mom like me, who has ambition to pursue my master.

Great

Did not have the main nessesity that I needed. I will not purchase any more books from amizon at all

Renting this book at a great orice and it is an excellent read!
