Customer Reviews

I purchased this book because it was recommended by my homeschooling curriculum. I had misgivings because the grade level is listed on the cover as grades 5-12, but my daughter is in grade 3. Since I've purchased it, however, I have used it just about every week. There are a great many ideas which can be used as-is, or can be adapted to different ages. It is really geared more towards a classroom, but most of the activities can be used with just one or two children. I frequently lead our weekly co-op, which has 7 children ages 6 to 11, and this book has been absolutely fabulous for that setting. I will probably keep this book for years to come, because there are so many recipes and activities.

This book is part of my children's homeschool curriculum. It looked overwhelming at first, but we love the activities. I would recommend it for any student studying early American history,

Great book!
