Customer Reviews

Required book for a college course that is now requiring a new book to be purchased with a one-time-use access code. It seems that publishers are finding new ways to avoid sustainability and circumvent the used book market by making colleges assign these new book bundles. I am glad that some professors allow students to choose whether or not they want to buy the bundle, which includes some extras including study guides, or opt out and buy/rent the used books and save money. At NVCC in Manassas, every class this semester "required" the access code bundles at \$150-278 a book. Multiply that by 6 classes and you get a cost-prohibitive situation for most students. I was glad that find this book as an inexpensive rental, and I'll go the extra mile and scour the book for my answers and make my own study guide. If it costs me a half a grade or more, it may be worth it to be able to afford college.

The 1st , 2nd , and the third chapter are separate from the book itself . It is hard to study with a book whose pages will fall down any minute' besides, it is very imbarceing using this book in class . But Thankfully, we have page numbers :)

I have seen better textbooks, this one left much room for manipulation opposed to cultivating critical thinking. Wasn't too happy our private Catholic HS was using this....

The book was fine in what it had inside. But as a book in general it was not up to par. It was half heartedly stapled together. Half of the book wasn't attached. The book was just in overall bad quality.

Got this for a friend and they said it was what they were looking for and at a great price

Good book, no damage, nice packaging. Used for Cultural Geography class.

A bunch of pages from the front are completely falling out

Came quickly and was exactly as described!
