Colorectal Cancer (Colon Cancer)

Synopsis

Colorectal Cancer (Colon Cancer) You are a medical student, resident, nurse, or other healthcare professional who has been tasked with learning about and reviewing: COLON CANCER. You need this information either for a board exam (eg. USMLE, ABSITE, etc) and/or to take care of patients. If it is a diagnosis, you need to know the associated eponyms, epidemiology, pathology, pathophysiology, pertinent history and physical exam findings, laboratory and radiologic workup, treatments, complications, and prognosis. If it is a procedure, you need to know the indications, procedural steps, and complications of the procedure. You also need specific multiple choice questions that test your knowledge on this topic and that will help you differentiate this topic from similar topics. You can find all of that information and more here. This work will also be updated with relevant information from current journal articles and review books. If you would like to receive free questions, please send an email to absitereviewquestions@gmail.com. **TABLE OF CONTENTS-** Pathology- Risk factors- Staging- Treatment- Metastasis- Complications- Strikeouts on the surgery oral board exam
