My Book Of Rhyming Words (Kumon Workbooks)

Synopsis

This book is for children who can read and write the twenty-six letters of the alphabet. Words that are familiar to children, such as hat, bat, rat and cat are grouped by the vowel and consonant combination of the last two letters. Through games and exercises that encourage children to trace letters and read aloud, children will learn how to read and write simple words.

The skill of sounding out words is critical to learning to read and write. This skill is not as easy to learn as many adults think. One needs to be able to recognize the sound value of letters instantly, and be able to blend those sounds to put together words, or for writing, to decompose the spoken words into sounds and letters. Used according to the instructions, this book provides an excellent primer for those skills, and thus an excellent introduction to word reading. Before starting this book, the child should be familiar with the lowercase alphabet and with the sounds - not just the names - associated with the letters. It is okay if letter recognition still requires a second or two of thought or is not always accurate, as the practice in this book will help make that recognition fluent. Children who are not familiar with the alphabet may wish to start with the preceding book in the Kumon preschool English series, My First Book of Lowercase Letters, or with the book before that, My First Book Of Uppercase Letters (Kumon Workbooks). To make the learning process as easy as possible, the

words in this Rhyming Words book are composed of a single leading consonant with its most common sound, followed by a short vowel, followed finally by a single final consonant with its most common sound. Because the spellings of all the words in the book are regular, the student does not get confused with different sounds for the same letter or different letters for the same sound.
