# Kamov -27/-32 (Helicopter) Family - Red Star Vol. 29

## Synopsis

This book provides an in-depth study of the Kamov Ka-27, a military helicopter developed for the Soviet Navy and currently in service in Russia, Ukraine, Vietnam, South Korea, China and India. With relatively little in print covering helicopters, this detailed book will prove to be a valuable resource for aviation enthusiasts and modelers seeking technical details and development and service history information on the Ka-27 and its variants.

## Customer Reviews

A well researched book. If you want or need more info on the Kamov 27/32 family of helicopters, this is the book to get. It contains an amazing amount of information and pictures, well written and easy to understand. Modelers will also find this book helpful as it has many pictures of various different angles and parts of the helicopters. All pictures come with caption to help you spot differences between the various versions of the helicopter. The book contains the following chapters.

Introduction  
1-The Progenitor: KA-27 Development  
2-For War and Peace: Assorted Versions  
3-A Closer Look: The Helix in Detail  
4-The Operators  
5-The Helix in Action  
6-Colour Photographs

Chapter 2 has so much detail that you could build a replica with the info in this chapter. Measurements, weights, materials etc used in the helicopter are all described in detail for each version ever built. Chapter 3 has pictures resembling those of the Walk Around series books. Very helpful for modelers. All pictures are black and white except for the last chapter which has 21 pages of colored pictures.

Overall an excellent book on this amazing helicopter and I recommend it to fans

of Soviet helicopters and modelers alike.
